***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Group A drawn to the species illustrated in figures 1-4,

Group B drawn to the species illustrated in figures 5-8,

Group C drawn to the species illustrated in figures 9-12,

Group D drawn to the species illustrated in figure 13,

Group E drawn to the species illustrated in figure 14,

Group F drawn to the species illustrated in figures 15 and 16,

Group G drawn to the species illustrated in figures 17 and 18,

Group H drawn to the species illustrated in figures 19-22, and

Group I drawn to the species illustrated in figures 23-28.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3727

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robin A. Hylton whose telephone number is 571/272-4540. The examiner can normally be reached on flexible, Monday-Friday 9:00 am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young can be reached on 571/272-4549. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
